australian.industry.statistics@abs.gov.au

Overview

The Australian Bureau of Statistics (ABS) is consulting with users of the [Australian Industry](#) publication to receive feedback on proposed changes:

- removal of items and/or industry detail in Mining industry tables
- removal of the Industry value added tables
- removal of, or changes to the Industry value added data item.

We are reviewing the Australian Industry publication content to ensure we can continue to provide high quality data that is important to our users. This is why we have proposed to remove some less-used information.

Australian Industry is released annually and contains annual estimates of key economic and financial performance of industries in Australia, including income, expenses, profit and capital expenditure.

Why your views matter

The ABS will make decisions on changes to the 2023-24 release and future releases of Australian Industry based on the information gathered in this consultation.
